

# Khoi Phan

## FRONT-END DEVELOPER - UX/UI DESIGNER

An enthusiastic Front-end developer specializing websites and interfaces designing. Good knowledge and skills in delivering UX/UI also.

As a developer looking for an internship, I would like to take advantage of skills achieved from school and learn throughout realistic situations to become a high-rated programmer and designer and bring the final product to customers. I strongly believe I could be the one contribute enormous value to the company.
